

Public Meetings on Proposed Central Business District Tolling Program

Thirteen public meetings on a proposed plan to toll vehicles that enter, or remain in, the Manhattan Central Business District (CBD) at 60th Street and south are being held virtually as part of a federally-required Environmental Assessment (EA) by the Metropolitan Transportation Authority, New York State Department of Transportation, and New York City Department of Transportation.

The goal of the program is to reduce traffic congestion and raise funds for mass transit.

- Public meetings will focus on specific geographic areas, though anyone in the 28-county, three state Study Area can sign up for any of the meetings, which will provide opportunities to:
- Get information about the program and provide comments, input, and concerns ahead of the release of the EA
- Learn about the EA being conducted to evaluate the effects of the CBDTP
